STATE BOARD GOVERNANCE

Structure

The Board of Public Education, exercising general supervisory responsibility and in most cases acting on the recommendations of the Superintendent of Public Instruction, has a number of duties prescribed by law concerning the elementary and secondary schools of the state (e.g. accreditation and teacher certification). The control and supervision of the School for the Deaf and Blind is vested in this board which also has governance responsibilities for vocational education.

The Board of Regents is vested with full power, responsibility and authority to supervise, coordinate, manage and control the Montana University System and also to supervise and coordinate the community colleges.

The members of the Board of Public Education and the Board of Regents, meeting together, form a State Board of Education which has responsibility for submitting unified budget requests, for long-range planning and for coordination and evaluation of policies and programs for the state's educational systems. The Governor serves as president of and the State Superintendent as secretary to the State Board of Education.

Membership

The Board of Public Education and the Board of Regents each have seven voting members appointed by the Governor with the consent of the Senate. Neither board may have more than four voting members from the same congressional district nor from the same political party or organization. The term of office for appointed members is seven years, except for the student appointee to the Regents whose term varies.

The Governor, Superintendent of Public Instruction and Commissioner of Higher Education serve as ex officio, non-voting members on both boards.

DIRECTORY GUIDE
FOR SECTION B

DIRECTORY GUIDE

The Section B public school directory on the following pages is structured alphabetically by county. Information is based on reports submitted by districts, through the respective counties, as of October 1, 1976. County totals for certified staff and enrollment have been added this year. In addition, three indexes appear in Section D of the Directory for your convenience in locating people and schools by name or by site.

Information under this column indicates the location of the district first, and then the names of schools in that district. Some of the school addresses show street address, some mailing address only, depending on information submitted by local school officials.

*** DISTRICT NUMBER ***	L.E. CL	PUBLIC SCHOOLS IN DISTRICT SITE / SCHOOL NAME - ADDRESS
1	0535 (3)	VIRGINIA CITY
2	0536 (3)	ALDER
		ALDER SCHOOL ALDER 59710
4-47 & 2		
5	0537 (2)	SHERIDAN
		SHERIDAN SCHOOL P O BOX 586 SHERIDAN 59749
5	0538 (2)	SHERIDAN
		SHERIDAN HIGH SCHOOL P O BOX 586 SHERIDAN 59749

The column heading **CL** abbreviates **class or district classification**. A first class (1) district has a population of 6,500 or more; a second class (2) district has a population of between 1,000 and 6,500; and a third class (3) district has less than 1,000 residents.

Numbers for each district are assigned by the district board of trustees in concurrence with the county superintendent. Strict legal reference to Montana districts is by number, not name; e.g., District Number 5, Madison County. Hyphenated district numbers usually signify joint districts.

The column heading **L.E.** abbreviates **Legal Entity**, a code applied simply for reference use by staff members and for computer programs of the State Superintendent's office.

FOR SECTION B

Names of local school officials are listed in this column by title (chairperson of the board of trustees, district superintendent, and the school's principal or supervising teacher) with addresses.

Certified staff includes such positions as teachers, principals, superintendents, librarians, counselors, instructional supervisory staff and administrative assistants.

A school noted as "(Non-Operating)" is one that is closed during the 1976-77 school year.

This column indicates grades in which the school is prepared to offer instruction, not necessarily grades for which students are currently enrolled.

Joint school districts are identified by listing the counties involved in the district and the county of the school's location.

Full-time and part-time staff and staff members serving multiple schools are included in a "full-time equivalent" total, computed for the portion of the time they serve in each school.

Enrollment lists the total number of pupils in each school as of Oct. 1, 1976.

When the chairperson and superintendent are the same for both elementary and high school districts, their names appear only once—in the elementary district data.
